

Morgan Others (14,995 GBP)

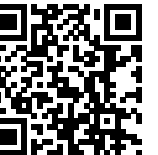

Location **London, London**
<https://www.freeadsz.co.uk/x-192268-z>

Truly unique Morgan/Lea Francis 2.5 Sports Special.Circa 1985 the then owner had a Morgan style body coach built onto the LeaF chassis,fitting an overdrive,Rudge 5x 17" wire wheels & the crowning glory is the Marque's rare Unihorse radiator mascot.This car comes with genuine provenance + signed hand written letters and emails from past prominent owners history, along with headed LeaF works history confirmed by our president Barrie Price Esq,back to the buff log book & is recorded in LFOC's archives & on their website.

Another significant owner/collector was the late Fuad Majzub who added the Leaf to his collection.I have emails and conversations on file from his son Julian Majzub,who now owns Blockley tyres & affectionately remembers that they "used it quite a bit"

The LeaF 2.5 special 120bhp engine was raced in Australia & New Zealand in the 60's & Barrie Price works recondition the engine +.020", in the Millenium,less than 4,500 miles ago.

Mine is not concurs but in good working order having been campaigned recently to Ypres.Always welcome at Morgan meets with lots of!
