Hypnosis At Wise Blue Owl Therapy Centre we have two hypnotherapists whom have been helping clients achieve their goals for 10/15 years each with huge success. Hypnosis is often referred to as an altered state of waking awareness. It is a perfectly natural state, which occurs somewhere between being fully awake and fully asleep.

Being hypnotised does not involve becoming unconscious, nor are you put 'out' or to sleep. You continue to have the faculty of hearing and the ability to think. Your mind can in no way be dominated by the therapist and you cannot be made to do anything that you do not want to do, either in hypnosis or afterwards.
