12 months mot until November 20016 This car was a lady owner from new mobility car, hence the really low mileage of only 63229 miles. the car starts and drives like new. no know faults. all old mot certificates are present to back up mileage. loads of service history and garage receipts. Electric windows. Pas. Air conditioning is ice cold. Mot inspectors comments where as follows. This is the best condition astra I have seen underneath for this age for years. Complete full V5 is present. I bought this car from a trade supplier friend of mine, for my son to put his joinery tools in the back, But he does not like it, says it does his street cred no good. So I am selling it on with a full mot at what it cost myself. Hence the cheap price. Give me a call and ask for.
