The car is in excellent condition for age, although you will find the usual marks age related. Details to name are only the fuel gauge that works but is not very accurate, so we just fill up the fuel deposit every 350 miles to make sure we always have fuel, never been a problem. And a mark in the left side of the front bumper from being plastic weld but not being paint finished so if you see the pictures you will find some black tape to make it unnoticeable. It doesn't affect in anyway and passes unnoticed. The car is very comfortable has expected from a Audi, with no external noises or any kind of bangings.

The Backbox exhaust is new and it makes no noise at all.

Has 4 Brand new tyres that cost me more than 300,00£ two months ago.

For this MOT i bought 2 new rear suspension spring coils, windows wipers, lambda sensor, 2 front wheel bearings.

Has i said the car was serviced and is well maintained. No faults or dashboard lights with problems at all.

Has a BOSE sound system with subwoofer and a JVC radio with CD.

If you want to see the car you are very welcome and since is taxed and Insured we can give it a go so you can see how good it is. You can bring a mechanic if you
