Photographers who demand the all-in-one zoom, versatility, and image performance for subject magnification, will appreciate what the Tamron LD B003 Di-II VC Aspherical IF AF Lens has to offer. Featuring an incredible zoom range, the Tamron Lens for Canon has a range of 15x, and an 18-270 mm f/3.5-6.3 lens, this lens provides versatility for photographers.

Tamron's vibration compensation - blur-stopping power with no annoying motion delay in your viewfinder! With the advent of the 15x zoom lens from Tamron, the pioneer of high power zoom lenses. The lens covers an angle of view equivalent to that of a 28mm wide angle to a 419mm ultra telephoto with just one lens, letting the user capture once-in-the-lifetime images of panoramic landscape images or close-up pictures of children smiling, without having to get too close to the subject and without having to change.
