Location **North, Lancashire**

For sale is a large terracotta coloured couch. Comprises of a 2 seater and a larger 2/3 seater (slightly bigger). These are individual pieces that slot together. Very comfortable. Couch is used but in good, clean condition. No rips, tares or heavy stains. Complete with cushions. This is a big sofa and have had to buy a smaller one due to the size of my living room. Collection only due to size and weight (Gtr Manchester). SPOOKY!!

Now For The Interesting Bit. Whilst sorting through the photos on this item, me and my partner noticed these balls of light (maybe orbs). They were not visible when taking photos. We take a lot of photos in the house for family pictures and for vinyl records that we sell and have never seen this before. The camera works fine and have taken photos since without anything strange on them. Only seems to be centered around this couch. We have owned the couch for approx 1 year and strange things have happened in this time - nothing bad, just things like stuff going walkabout and turning up at a later date somewhere else - a tap turning on, on its own - some knocks/noises etc...We don't feel any vibes around the house (good or bad). Make of this what you will but thought we would use the pictures with the strange light anomalies on them. They weren't visible on all the photos taken - about half of them. For anymore information please message or ring me. Sensible offers welcome. Thanks for looking. ;
