You don't see many in red but I think the truck looks well, It also benifs from a new set of Bf Goodrich Tyres upon its last test at a cost of £650 and as you will see from the MOT certificate the truck has covered 6500 miles since so there is more than 90% wear left in them. The truck has sat nav, Full Leather, Air Con, Front & Rear parking sensors, Cruise Control, Chrome Pack, Colour coded snug top and plastic Liner to the load bay. Had a tow bar fitted at the start of the year complete with an Adjuster plate and thirteen pin electric which means all new trailers will plug straight into the truck, there is an adapter back to 7 pin too. The truck comes with full service history to 66,000 miles and have serviced every 5000 since. The truck has never been abused or used for heavy work. as you can see from then photos the truck is in overall good condition unlike some of the examples you will see on here. there isnt so much as a scratch on the rear load liner. The truck can be put back on the original alloys which are 17".
