This trombone is from a top manufacturer. It has a single 'trigger', being a Bb/F. The slide is good and has a little blemish near the 'stockings'. The trom is laquered and also has a red bell, which will give it a warmer mellow sound. The bell does have some scratches on it. It also has a few small dings/dents which don't really affect the appearance. The case is sturdy and also not too bulky. Overall this is a good trombone. I saw one advertised with John Packer musical instruments and they were asking for £495. Having looked at theirs I would say that mine looks a better prospect. I have tried to give a detailed account of the instrument's condition. I will try and add some pictures- not my bag!! Please phone me for more details. You are welcome to inspect and of course try this out for yourself.
