top quality retro (1991/92) vintage 'Munchen' CD41 car radio CD player, and complete with its No.1 keycard. Price new was about 475! For spares/parts only. However, it powers-up and works but the volume when switching-on is at maximum, when it should be at minimum. May be a quite simple bench-test fix for somebody in the know. The asking price therefore reflects this. Perfect for an on-going early 1990s luxury car re-build, etc. Standard DIN connection. Not suitable for sending by mail, so this will be a pick-up only. Fitting cage can be supplied if required @ extra cost, (a fiver). Bismarck build quality, and all in.
