Suzuki SV1000S 2004 54. The SV is a very competent all rounder, it is a great bike for fast blasts and really good for commuting around town. It will more than hold its own around the country lanes, the best of both worlds in one bike. This motorcycle has only had two owners from new, it is in excellent condition having been looked after well by the previous owners. It is completely standard other than the useful added extra of heated grips. A very competitively priced V Twin at only £2795. It will receive a full sales check and a fresh MOT prior to delivery. Cars and bikes taken in part exchange. Finance offered subject to status. Nationwide delivery available. E
