Hello everyone, I am selling my old Dell computer. Full specs:

i3 2120 CPU
4GB DDR3 1333 RAM
1TB 7200RPM HDD
AMD Radeon 6450 GPU
Dell 80 Plus Bronze PSU
Currently running Windows 7 Home Premium x64 but is eligible for the Windows 10 upgrade.

It's fully working and in very good condition, product key sticker is still perfectly legible etc. I have just wiped it back to factory settings so it is all set up and ready for a new owner. I'm more than happy to meet somebody half way if they are.
