There is now a brand new solution to help you save money and the environment. Certified and legally refillable propane cylinders are here. We have a safer way to save money by refilling your own 1# camp size propane cylinders. www.propane-refill.com. These reusable cylinders are DOT & TC certified, tested, and legal for use over ten years! "We found that most campers don't even know this solution is available to solve the wasteful expense of single-use, disposable cylinders!" Email: propane.refill@gmail.com, many National Parks have had to develop their own Recycling Machine! What about those small refill adapters? There's a good reason why disposable tanks are labeled single use & "Do Not Refill"... Don't bet your family's safety on refilling single-use cylinders. Check out the solution at www.propane-refill.com - see us on ebay at www.stores.ebay.com/propane-refill. Tag:
