

Beautiful dark wood sideboard (250 GBP)

Location **East Midlands, Nottinghamshire**
<https://www.freeadsz.co.uk/x-197784-z>

I am selling my beautiful sideboard, which is currently in my lounge. I have had this for a couple of years having inherited it from my sister. I believe it was bought from Ponsfords in Sheffield. This is real wood (though I can't be certain of the type of wood) and is a dark, rich colour with shades of mahogany and other beautiful tones running through it. It is an extremely well-made piece of furniture, strong and solid made with dovetail joints; this is not flat-pack!

It is 69 3/4" long and 18 3/4" wide (let me know if you need it in cm).

This item has been used and has some marks on the surface, so please note you are not buying a new item. However, the marks do not detract from the beauty of this furniture. I have tried to take photos to show the obvious ones but these are not showing well on the pictures I have. Please let me know if you need further pictures.

The back has been cut out at the back of the left unit to allow for leads, etc to be fed through.

I operate a no-returns policy.

This item is for collection only. However, I may be able to deliver if you are local to Derby and I will charge mileage @ 25p per mile. I would need help unloading this item due to its weight.

This item can be viewed if you contact me.

I have an identical unit which I will also be selling shortly, this is currently in my bedroom.

Please have a look at my other items as I am having a good clear out before.
