Looking for a new, fun way to travel? This dual wheel e-scooter is the way to go! It's like a scooter, but is easier to control direction than typical scooters. You only need to slightly tilt your feet to be able to control its direction, short-distance travel is very convenient.

It has a small body, light weight, transport is easier than 2 big wheels balance scooters , operation is simpler than a single wheel electric vehicle . Specifications: Distance: 15km ~ 20km (depends on rider's weight, road conditions, etc) Battery: 36V * 4.4AH (160WH) Samsung lithium battery Adapter Input: 100-240VAC, 50/60Hz, 0.5A Speed Protection: 10km/h ~ 15km/h Low Battery Protection: Yes Color: White, Blue, Green, Black Size: 584 * 186 * 178mm / 23 * 7.3 * 7in Tire Diameter: 170mm / 6.7in Weight: 12KG Maximum loads: 100KG Technical Parameters: Maximum speed: depends on rider's weight, road conditions etc Running distance: around 15-20km (depends on rider's weight, road conditions etc) Max tilt: around 15°-30° (depends on rider's weight) Highest power: 500W (contain)-1000W (no contain) Using temperature: -10°-40° recommend at 10°-30° Charging Voltage: AC110-240V 50-60HZ Charging Time: Around 60-120 Mins (30 Mins to 80%) Low Battery Protection: when battery is lower than 10%, it will slow down and finally stopped working Power switch LED: works when turned on and keeps twinkling under protection circumstances. Voice Alert: Beeps when turned on and has a low battery capacity Package List: 1 x Dual Wheel Self Balancing Smart Electric Mini Scooter 1 x Plug & Charger

1 x
