Our kittens are now ready for their forever homes. We have 2 all black kittens with hazel/green eyes, one is a boy and one is a girl and one black and white female with hazel/green eyes and white whiskers. She has a white chest and tummy and 4 white paws. All kittens have lovely temperaments and are playful. They are eating solid food and drinking kitten milk and are litter trained. They are used to children, other cats and a boisterous puppy!;
