I'm selling my Suzuki address 50cc as an ideal project or field bike to learn on as a first time bikebike or for parts. The engine runs fine and starts first time every time even on cold days. The mechanics are in good condition. All it needs are back light weird up, a new air filter £10.00 for this bike, a key barrol also right side front and rear indicator plastics (both work fine and will cost £20.00 for both) i got this as a project but no longer have the time for it and getting a bigger bike. It's never let me down and pretty quick with the right air filter. Selling for £70.00 or sensible ono. No log book with this bike so you will have to send off for it. No time wasters.
