Great Car Ultra Low Mileage

This was my parents car, they only used it for 18months before both had to stop driving. It has been very well maintained (my father was a retired engineer and had his own fully stocked workshop)

The interior is immaculate.

There is small amount of minor bodywork/paint damage to passenger side door where Dad misjudged the distance to a grassy bank when parking (see photos)

This mileage and model advertised at £4600 in immaculate condition on Autotrader so this IS priced to sell taking into account bodywork.

No Tax or MOT as has been off the road for over a year but am to help arrange.
