Original one-off wood burning stove. Absolutely unique and hand made by an artisan in Brighton. Natural patina. Interesting bicycle cogs vent control which seals very well, and tight fitting door, giving a very slow all night burn. Economical small size, and perfect for extending the seasons patio time. Good for workshop or garage heating? Room on the flat top for a kettle or hot drinks. Made from thick 1/8" iron plate, not metal sheet. Weighs about 25 lbs, so not hard to move, (when cool!). Really hate to sell it, but 'leaving on a jet plane' and it won't fit in my.
