

Super car 155 mph , only 120year insurance, Subaru Svx Coupe automatic (3,895 GBP)

Location

East Midlands, Derbyshire

Ultra rare 1990s 155mph (250 km/h) Super Car.

(the later ones from 1994 are restricted to 135mph, not this one) permanent 4 wheel drive, ideal winter car

The television commercial advertising the car in Japan used Alison Krauss singing "Five Hundred Miles", a reference to the car being able to travel 805 kilometres (500.2 mls) on one 70 litres (18 US gal) tank of fuel, with a fuel economy of 9.4 L/100 km (30 mpg)

Famous Italian automobile designer Giorgetto Giugiaro of ItalDesign designed this fantastic car, the cars half-windows are generally seen on exotic vehicles with "scissor", "gull-wing", or "butterfly" doors, such as the Lamborghini Countach, De Lorean DMC-12 (another Giugiaro design), and the McLaren F1. The SVX's aerodynamic shape allowed it to maintain the low drag coefficient of $C_d=0.29$

This SVX is in great condition with just 106,000 miles on the clock. The 3.3-litre flat six starts instantly and runs faultlessly.

Bodywork in, the best colour colour combination in my view, is beautiful and the luxurious Leather and Alcantara interior normally only seen on more expensive sport cars like Maserati of this age is also excellent.

Cruise control, all 4 electric windows, electric mirrors, heated front seats, fully electric front seats and electric sunroof all work, as does the radio cassette and 10 disc CD changer.

with improvements throughout the year. <https://www.freaddsz.co.uk/x-2013>

the car comes with a MOT till 17.December, but will put new MOT before collection.

You won't find a nicer example for anything close to this price.

I have the Subaru Service and Warranties Booklet with the car, and it's fully stamped up to 95,000 miles.

Insurance is only £120/year with Footman James classic insurance no emails
