Are you ready to be an awesome photographer and to unleash the creative you! Are you interested in photography and thinking of buying a camera or taking a photography course? Are you looking for a crash course in photography or are you struggling with the basic of photography? Do you want to be able to take your own shots instead of hiring a professional photographer? Would you like to learn how to take fabulous portrait, landscape and architectural shots ? Are you willing to open yourself up to the magic of your creativity and learn how to take those all important awesome dream shots like a pro ? I am an Asian lady photographer offering basic one to one photography tuition. I teach the very basics of DSLR photography to get you started and up and running with your own camera. My speciality is in creativity and helping you to unleash your potential to get you started on the road to your inner pro photographer. I am fun to work with and very patient. To get started you will of course need a camera and 4 gig memory card at least as we will be doing a lot of shooting. It is very important to have your own camera of course, as you will need it to practice with afterwards and it is very important that you get to know your camera inside and out. You will get the opportunity to come out on location and shoot with myself and get taught the basics of photography such as aperture, shutter speed and ISO to start with. Once you feel confident enough you will get the opportunity to come out on shoots with other photographers and to also do some studio work. There will also be future opportunities to come out on paid shoots with clients permission first. I myself will be using a nikon D90 or a 610, so if you have something other than a nikon that is fine as all cameras work on the same principle. My rate is £40 for an hour for exclusive one to one tuition out on location where we will spend pretty much the entire time shooting with some theory in between. £25 per hour if booking for 4 hours or more, and full day which is usually around 7 hours is £150. I will be

there to direct you and pretty much walk you through the process. If this is something that interests you please contact me on 0113 233 3333 To see more of my work please visit my website and I can show you my portfolio. Have a great day and if you are looking for more information please contact me on 0113 233 3333
