Everyday Living Therapy We are a unique therapy service, who can offer comprehensive one-off therapy assessment and advice, ongoing therapy treatment to facilitate and enable people regardless of their ability to fulfill their optimum potential. Our therapy service specialises in providing occupational therapy for people affected by neurological conditions such as brain injury and progressive neurological disorders, such as, but not limited to Parkinson's disease, Multiple Sclerosis'S, Motor Neurone disease and congenital disability. Our Occupational Therapists are: Health Care Professions Council (HCPC) registered Hold Professional Indemnity Insurance Members of British Association of Occupational Therapy (BAOT) DBS Checked. We are able to provide highly detailed functional assessment, standardised assessments and develop collaborative goal orientated treatment programs tailored to your needs. If following your initial enquiry or assessment it is determined that Occupational Therapy may not be the most appropriate therapy intervention for your needs.... don't worry: Our service is set up to seek the right therapist to meet you individual needs, as such if it is identified that your need is more based on communication or physical difficulties then we have the ability to support with finding the therapist with the appropriate skills, registration, insurances and experience to help you. For more information please refer to www.everydaylivingtherapy.co
