I have had this car for nearly 3 years and it has been great but the arrival of my new TT means it is time for the A3 to find a new home.

It was chosen as it has a great specification which includes the factory SatNav and Multimedia system with DVD player, CD and also memory car inputs. Also the car has "follow you home" lights, all round electric windows, climate control and a trip computer too. The car is finished in a smoky blue/grey as you can see here and is in very good condition all round, save for a small mark on both the front and rear bumpers. It has got away with no car park dings and while the screen has a small chip in, this has not spread and it has gone through a number of MOTs with this.

I regularly get over 60mpg from this car with a record of 72mpg indicated on the trip computer on a run. The MOT runs until January and the service record is extensive, the car was serviced on 5th November and also had a new wheel bearing at the same time.

More than happy to answer any questions - car available to view in
