However few treatments such as skin treatments, digestive remedies, lung disease treatment, few biologic drugs and anti-inflammatory drugs are given to treat joint difficulties. Besides Bosentan is also a treatment which is under study for treating systemic scleroderma. All in all, they do not guarantee hundred percent cures, whereas in some, it leads to some severe complications and side effects in future. The best treatment according to Natural Herbs Clinic is scleroderma, it is effective, and has no future side effects..... <http://www.naturalherbsclinic.com/Scleroderma>
