I am selling my Onkyo LSB-50 soundbar, it comes with a wireless subwoofer and optical cable to connect it. It is in good condition with a tiny dent on the top grill which you can't really see unless you are looking in bright light, it can be easily pushed out if you are willing to take the grill off I couldn't get it to show in photos as it is so small. The unit is in perfect working order and provides an amazing wide sound stage for its size and the sub is good as well providing plenty of low end. The sub has the usual dusting scratches for a shiny black surface. Fully boxed ready to be collected. I have owned new for around a year now and paid £299 for.
