I remove mental road blocks by approaching difficult area from other directions, and by instilling the confidence to overcome obstacles.

Tutoring sessions are customised to the individual student's needs, with revision strategies to maximise exam performance.

Very good at motivating students, being enthusiastic and making the subject fun and exciting.

The pace is customised to stretch the young people, while keeping within their comprehension zone.

I have the ability to be able to explain complex things in a simple way. I include tutoring the new Science and Maths.
