

British Shorthair Kittens In Need of a Home (100 GBP)

Location **North, Lancashire**
<https://www.freeadsz.co.uk/x-204999-z>

These beautiful fully registered babies are ready for their new homes now. Tested parents both clear of these dreadful genetic diseases which can cause much suffering. NEVER buy a kitten that parents haven't been tested.

Fully inoculated, vet checked and all 100 % fit and healthy, worm and flea free. Microchipped, eating very well and litter trained.

They have been reared in our family home and are very bold and confident, they trip me up whilst hovering and follow me to the loo and back.

All their paperwork comes with them, registration, pedigree and vet card. Also enough food for a week, toys etc.

I will always be on hand to give any help you need, and if your circumstances change, I will give you every assistance in finding your baby a new.
