Here we have a 2005 Vauxhall Combo 1.7 TDi Manual in White. The vehicle has been really well looked after and only used for light Carpentry work and has been really well looked after. The gear box is lovely and the Clutch has obviously been done recently as it drives lovely too. The paintwork is in really good condition. The seats have had covers on for most of there life so they are in great condition. Everything works fine apart from it needs a £40 rear door lock. This is the 1.7 TD Engine so it has the extra power and is still very good on fuel. The car has ABS, Manual 5 speed gearbox, Power steering, Radio, Drivers air bag and Immobiliser. This van has the side door and the rear doors have windows which are really helpful for reversing. The interior boot floor has been carpeted and ply lined on the sides. Power Steering,
