Black, 2 owners, This is the last model of SM-T that KTM produced. It is often said to be the BEST colour with the orange frame. We sold this bike from new and then resold it when it came back in part exchange for an 1190 Adventure. The current owner has decided to go green laning, so it has had two previous owners. Other than a rear hugger and heated grips it is standard and has not been messed around with. It also has full service history by ourselves. The North West's finest family run motorcycle dealership, £8,495 p/x
