Grey, This is our last grey 1190 Adventure. It doesn't have the travel pack, but is the best price out there. We will also give you a free first service on this one! The new 1190 is radically different from the 990 it replaces. The whole package of chassis, electronic suspension and rider aids makes this 150bhp, 230kg bike seriously capable with more rider-friendly characteristics than any previous KTM Adventure. Through the combination of lightweight tubular steel frame, die-cast aluminium swingarm and top-spec WP suspension, the handling is precise and the chassis feels incredibly balanced while offering clear feedback about exactly what's happening. The retention of a conventional chain instead of a shaft drive means the bike reacts far more accurately to the rider's throttle inputs. The 19-inch front wheel gives a good feeling of security. While power is plentiful, it's also smooth, clean, precise and easy to manage. The North West's finest family run motorcycle dealership, £11,950 p/x
