I purchased this great bike to try and improve my knee problem. It's only been used for 10miles, as unfortunately it just made things worse, am know booked in for an operation.
I put the bike in to Halfords for its 6 week service, and it's not been used since. It's been kept in the house, never got wet, and is in new condition.
The frame size is 49cm... And my height is 5ft 6 in
It is still a current model in Halfords at the moment.
This is the silver/chrome model.
If you look on their website it retails for£599, and you can check out the specifications.
Comes with all paperwork.
