Wardrobe (only 8 months old - used). I want to sell it due to 2 reasons .

a) it is too large for my box room. I realized it after assembling the item.
b) planning to move home. Whoever interested must pick it from my home pinner. You may also need to dismantle the item. I am not very good doing this one. So, think before you come home smile emoticon (get the tools to dismantle as well). Fairly good condition except few wrong nailing at the back side of the wardrobe. But this can be done beautifully when you assemble it again. picture 1 - is the picture captured from actual advertisement.
