Hey You! Don't watch that, watch this, this is the Mainly Madness Sound... Playing live at the Robin 2 Wolverhampton on 27th November 2015. Head to [www.therobin.co.uk](http://www.therobin.co.uk) for tickets. Mainly Madness have quickly become known as one of the best tribute bands gicing in the UK today. Providing a show packed with energy, we faithfully reproduce the best of the ska and 2-tone genres.

As well as songs by the 'Nutty Boys' themselves - Madness, we also play The Specials, The Beat, Bad Manners, The Selecter and many, many more. We have even had the great privilege of supporting a number of the bands we cover over the last few years. Head over to our website for a full setlist.

Our 8 piece lineup gives us a sound most tribute acts struggle to achieve, from the piercing trumpet of 'Lip up Fatty' to the incredible sax solos of 'One Step Beyond', and from the raucous trombone of 'A Message to Rudy' to the ethereal sound of the flute in 'Ghost Town' - there are none who can match us.

And did I mention that we love to dance and have as much fun as the rest of the crowd?
