Philips Stereo CD/Radio player, compact size and ideal for use by children. Very attractive design and colour, and easily carried around. Works on battery or mains power. CD player features 20 track programmable via the front digital display, shuffle, repeat, dynamic bass boost, Line In, etc. The radio features FM & AM wavebands, boosted by a telescopic ariel, with a tuning guide on the side of the player. The player is in as new condition and would make a lovely children's Christmas present at a very low.
