

Volkswagen (VW) Golf FSI SE 1.6 (2006) - 12 month MOT (3,600 GBP)

Location **London, London**
<https://www.freeadsz.co.uk/x-213321-z>

2006 VW GOLF FSI SE WITH 12 MONTH MOT FOR SALE With only just over 92,000 miles on the clock, a new 12 month MOT certificate and the added benefit of cruise control, auto headlights and auto wipers, this car is a real bargain to say the least. The car has had just one other owner besides myself and comes with two remote keys and a full service history. It's in great condition for a car of this age and has been well looked after by both myself and the previous owner, which certainly shows when you drive it. The reason for selling is because I'm emigrating to Australia with my partner just after Christmas, so everything that we're not taking with us must go. It's a shame that I can't take the car with me as it really is a lovely car to drive and has proved to be highly reliable. I know that the first to view the car will almost certainly buy it, so I encourage you to get in contact with me as soon as you can to arrange a test drive.;
