This is my Claud Butler Milano 2013 Model, really good condition, got a few small scratches on it but not really visible. There's a little tare in the seat but really miniature, everything is working brilliant on it, only had it for 11 months now. I didn't haven't bother with the bike after the summer, only been used about 10-15 times. Comes with a hand-pump, drink holder, adjustable helmet, a red light which you can see on the back of the bike, and a size small white giant water proof jacket and a pair of small white and black padded shorts. Would really want £250 for this bike, i really think its worth the offer. Thank.
