Classic mens gold bracelet ten inches overall, 16 links not including the clasp links, in lovely condition 50+ grams.i have had this for over 12 years, just going through things i don't use any more.asked my local jeweler what they thought about my bracelet and they said it would cost over a thousand pounds to get a new one.They did not buy second hand and advised me to go to Chester where there are numerous reputable jewelers who do.Before doing that i thought i would try selling on line. p.s. at present there is another seemingly identical bracelet for sale from someone in south wales.what an opportunity for someone with twins to avoid disappointing one of them on their birthdays. i have only priced my bracelet lower as my scales record 50.4 g I think this is because they are hand made. ;
