Excellent Interior, Seats have no tears. Plastics are in good condition (glove box works), only fault is the steering wheel has melted slightly (Common Problem).

Exterior is very good for age. Few marks to be expected from car parks etc.

This is NO rust on the car which is always an issue for KA's.

Tyres have good tread.

Only selling due to a driving suspension for medical reasons.

Really fun and economical car, would make an excellent first car.
