

Our "Lifetime Warranty" ensures your repair will be covered for as long as you own your vehicle.

NISSAN QASHQAI INSTRUMENT CLUSTER REPAIR (2008-)  
£150

The Nissan Qashqai Dash failure is quite a common fault. On this type of Odometer it is usually caused by internal components breaking down within the Instrument Cluster. The repair is carried out by fully qualified electronics engineers which involves stripping down the Instrument Cluster and replacing internal faulty components to rectify the problem. We do not offer "quick fix" we actually replace the faulty parts with new ones required.. Your mileage reading will also stay intact, so there is no need for mileage correction.

Your Nissan Speedo can be repaired at a fraction of the cost compared with the price of purchasing a new one. **COMMON ISSUES**

Failing warning lightsSpeedometer problemsFlickering clusterComplete power failurePixels failing on screen

## REPAIR PROCEDURE

1. Remove the cluster using the instructions on the website
2. Fill out and print our job form on our web site. If you don't have a printer please write the information

manually including your post code on the outside of the box for our reference.

3. Sign the form, cut off the address label and secure to the front of the box.

4. We recommend sending your Royal Mail Special Delivery

Between the two have relationships clustered and have paired. If you're a fan of the show, you can watch it via telecast.

**3. What we have learned about the dust  
warfare and the ground**

WERNER AND KRAEMER
