NISSAN QASHQAI INSTRUMENT CLUSTER REPAIR (2008-)

£150

The Nissan Qashqai Dash failure is quite a common fault. On this type of Odometer it is usually caused by internal components breaking down within the Instrument Cluster. The repair is carried out by fully qualified electronics engineers which involves stripping down the Instrument Cluster and replacing internal faulty components to rectify the problem. We do not offer "quick fix" we actually replace the faulty parts with new ones required.. Your mileage reading will also stay intact, so there is no need for mileage correction.

Your Nissan Speedo can be repaired at a fraction of the cost compared with the price of purchasing a new one. COMMON ISSUES

Failing warning lights Speedometer problems Flickering cluster Complete power failure Pixels failing on screen

## REPAIR PROCEDURE

1. Remove the cluster using the instructions on the website
2. Fill out and print our job form on our web site. If you don't have a printer please write the information

manually including your post code on the outside of the box for our reference.

We will then pack the cluster in a secure box and post it to the nearest Royal Mail delivery point.

We will then have your cluster repaired and we will post it back to you via telephone.
