SKODA YETI (5L) INSTRUMENT CLUSTER REPAIR (2009-)  
£150

The Skoda Yeti Dash failure is quite a common fault. On this type of Odometer it is usually caused by internal components breaking down within the Instrument Cluster. The repair is carried out by fully qualified electronics engineers which involves stripping down the Instrument Cluster and replacing internal faulty components to rectify the problem. We do not offer "quick fix" we actually replace the faulty parts with new ones required.. Your mileage reading will also stay intact, so there is no need for mileage correction.

Your Skoda Speedo can be repaired at a fraction of the cost compared with the price of purchasing a new one. COMMON ISSUES

Failing warning lights  
Skoda Speedometer problems  
Flickering cluster  
Complete power failure  
Pixels failing on screen

## REPAIR PROCEDURE

1. Remove the cluster using the instructions on the website
2. Fill out and print our job form on our web site. If you don't have a printer please write the information

manually including your post code on the outside of the box for our reference.

3. Put the form, cluster and business label in the box and secure to the front of the box

4. We will recommend sending it via Royal Mail Special Delivery

5. Once we have repaired the cluster it will be repaired and we will call you to collect it via telephone

6. 3-4 DAY AND 3-4 DAY AND

We offer a Lifetime Warranty (T&C's Apply), usually with a 24 hour turn around by post.

If you come to our workshop in Waterlooville (near Portsmouth) we are able to offer a friendly 90 minute fast track service. (Appointment only)
