RENAULT CLIO 4 INSTRUMENT CLUSTER REPAIR (2014-)
£99

The Renault Clio 4 Dash failure is quite a common fault. On this type of Odometer it is usually caused by internal components breaking down within the Instrument Cluster. The repair is carried out by fully qualified electronics engineers which involves stripping down the Instrument Cluster and replacing internal faulty components to rectify the problem. We do not offer "quick fix" we actually replace the faulty parts with new ones required.. Your mileage reading will also stay intact, so there is no need for mileage correction.

Your Renault Speedo can be repaired at a fraction of the cost compared with the price of purchasing a new one. COMMON ISSUES

Failing warning lights Speedometer problems Flickering cluster Complete power failure Failing pixels on screen

REPAIR PROCEDURE

1. Remove the cluster using the instructions on the website

2. Fill out and print our job form on our web site. If you don't have a printer please write the information on the form including a return post code on the back of the box for our reference.
3. Put the form, cut out the address label and secure to the back of the box.
4. We recommend using a Royal Mail Special Delivery service to ensure your cluster is repaired in time.
5. If you don't have royal mail the cluster can be repaired in workshop all you need to do is call us via telephone.

WARRANTY AND TURN AROUND

We offer a Lifetime Warranty (T&C's Apply), usually with a 24 hour turn around by post.

If you come to our workshop in Waterlooville (near Portsmouth) we are able to offer a friendly 90 minute fast track service. (Appointment only)
