Picture Perfect - A picture paints a thousand words. Adding numerous photos will make your advert stand out from the crowd and entice potential sellers so you get the enquiries you desire. The devil's in the detail - Use your description to let potential buyers know as much as possible about the item. Keep it friendly and informative. What condition is your item in? How old is the item? Providing these details could be the difference between deal or no deal! The price is right? Be realistic. If you overprice your item, it will deter buyers from looking at your ad. See what similar items are being sold for - this will ensure your item is priced competitively for a super speedy sale. ;
