

1979 Pilgrim Sumo Mk2 Ac Cobra Replica (4,500 GBP)

Location **East Midlands, Nottinghamshire**
<https://www.freeadsz.co.uk/x-216074-z>

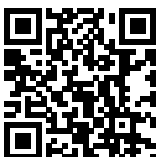

The AC Cobra! Built by an enthusiast back in the early 90's but never quite completed. The car is built on a Pilgrim Sumo Mk2 kit. We have taken the

last few remaining steps to complete the project. The car has done less than a 100 miles since the project was started and had only one owner. Now

ready to be enjoyed, this is a real stunner of a car. Finished in dark blue with contrasting grey upholstery. Powered by a Ford 2.3 V6 (fully

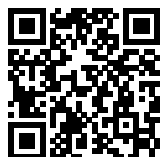

recondition) with a manual gear box. Also included is a wet weather hood and zip in windows. New stainless steel straight through twin exhausts which

gives the car a fabulous sound. Full and comprehensive build costs and receipts recorded in a project folder. The car will have a full service + MOT when.
