Summer will be here soon so a fabulous winter bargain. Great fun, style and acknowledged high performance, handling and pedigree. Sadly selling my retirement present due to unfortunate changes in circumstances. The car for those who are not familiar with the marque, is a 1994 N/A (non turbo) NISSAN FAIRLY 300ZX Open Top Convertible. It is a 4 speed auto with cream / tan leather electric seats. Since owing this car it has undergone a number of tasteful and subtle upgrades and safety enhancements. These include: KPH dials to MPH and derestricted speed limitation, all interior switches now illuminate and standard lighting on dash and console now LED so car has a modern feel and look. The discs have all been upgraded with high performance grooved and EBC pads; 18" diamond cut black and chrome wheels with 235 40 tyres (still like new) and fitted with TPMS; rear quarter marker lights illuminated, rear 300ZX panel replaced with "99 spec" and illuminated; parking sensors; crystal rear lights; RCL with alarm and immobiliser, HID H/L with professionally fitted "99 spec" inserts and LED switchback tubes that acts as DRLs and indicators combined and wired to dim when H/Ls are on - looks awesome. The roof is still like new and the carpets are still like new. Seats are in excellent condition but drivers seat bolster is showing signs of wear. The car has been regularly serviced by my personal mechanic, all fluids changed at last MOT. It has an MOT until July 2016 but has been SORNED since September. It has covered approximately 37900 miles. The car is, in my opinion, in very good condition but could be made perfect with little TLC, but whoever buys it will certainly not be disappointed. That said, please do not expect a brand new unblemished car, after all it is 21 years old. I am open to very sensible offers and may consider a smaller/cheaper px but only after viewing. Please do not waste mine or your time with silly offers. Genuine interests only please and STRICTLY NO TEST.
