Coachman Laser 650/4 is a stunning twin axle caravan which pinnacled the Coachman range. This one is a beautiful contrast of light wood and oatmeal soft furnishings making it very pleasing to the eye and very light and airy. It has the full end side/side seating, kitchenette, central shower cubicle with separate toilet/washroom opposite and a full double island bed complete with Coachman softsprung mattress. There is a huge amount of storage and cupboard space, including a massive space underneath the bed which also incorporates a factory fitted Alko safe. It has a full oven and gas hob, full size Thetford digital fridge, fitted microwave and top of the range fitted Avro 12/240v TV. All of the usual connections and fittings to the outside water, gas 240v, outside sprayshower etc.

There is a full Alko stabiliser unit fitted on the caravan with a very heavy duty insurance approved 'LockIt' hitchlock included.

This unit is a twin axle 'Reich' fully electrically actuated motor mover (all four wheels have motors).

Basically everything is done via the handheld remote. Once the unit is switched on you press a button to activate the rollers onto the wheels (not like the manual ones where you have to throw a lever) you then can manoeuvre the caravan with simple handheld pushbutton control. Extremely accurate for positioning the van and offering it up to the car for hitching with mm precision. All fully serviced and in perfect working order.
