

Integrated Lamona Larder Fridge, fridge works great but leaks underneath

We had a new Howdens kitchen installed in July and the built in larder fridge has just had to be replaced because, over time, it puddles water underneath as, apparently, the compressor might not be evaporating it quickly enough. The fridge itself works great but it can't go to a charity shop because of this leak issue and it's too good to dump! So if you need a fridge, you're welcome to it but we need it gone.
