hi here is the opportunity to buy a second addition zx6r,these came out in 1995,this one is a 1996 with 8600 genuine mile mot till July 2016 most mot certificates, 3 former keepers with excellent service history 11 stamps in book when it didn't even get used.....the only imperfections I can see are 2 small scrapes on front nose of bike as the first owner took it through a gate way and caught bike on gate frame and smashed the mirror and lent bike onto wall. and some small blemishes of age to the frame ,,no rust ,, I have the original mirror and the other as spare have the original screen in perfect condition and the original silencer also, and the solo seat in perfect condition. With a real carbon fibre hugger,,the wheels are in great condition a few minor marks you can hardly see,,when I purchased the bike it had a few rust spots on the fork stanchions, these could have been cleaned up and used but being a perfectionist with all the bikes I own, I paid over £300 for new ones to be fitted with new seals and covers, this bike is great, i in the past have owned 4 ninja's and this one is great, always been garaged hens the condition. A few receipts with this bike. all I can say is the new owner will be very happy as I think in my opinion that these bikes are great. I could even deliver to get a last ride in,, for a cost,,, but payment for bike must be paid first,,, I would prefer to be paid cash on
