Here we have an excellent 2008 ZX6R. A full on 600 supersports bike which revs to 16,500 rpm! A real riders bike which will handle like only a supersports 600 can. Flickable with a fast rate of turn you really can show up much bigger machines on something like this. The paintwork has a few small stone chips but you really have to be looking for them to notice. The bike comes with a factory fit immobiliser, this stops, a cloned key or screw driver being used to start the bike. Fitted with a double bubble screen for an extra bit of wind protection and sportier look. Fitted with a seat cowl, this gives the bike a sportier appearance. The bike has been fitted with braided brake hoses, this means there is no room for expansion as you get with rubber hoses giving much better braking efficiency. A fuel trip computer comes with this bike, it tells you your average MPG and also many miles you have left with your current fuel. The bike has been HPI checked and a Certificate will be presented with the bike. Viewing is welcome any time and we guarantee you won't be disappointed. We also offer nationwide delivery, so if you prefer us to bring the bike to you just let us know! Give us a call for more info or pop in and view at CMC Cannock. *NOTE: Alarms can be fitted to any bike at an additional**
