Ford Fiesta Very reliable car with service and clutch done last month, new brakes all round a year ago. Full service history up to 2 years ago when i purchased the car. This was my wifes car but we have bought a new car for her hence the reason for the sale. The car is in pretty good condition with a few marks here and there as you would expect. Couple of things to mention - the air bag light has just come on , not sure why it could just be a fuse i haven't looked into it and the other thing is the bonnet is a bit out of line due to one of the metal straps when you lift the bonnet up coming away from the body it just needs riveting back to the body. other small thing is it has a broken fog light. Tyres all good. This is low mileage for the year, the car drives great so grab yourself a bargain. Any queries/questions please ask.;
