Here is my 1.8 corsa it has mot until October and has recently had a new steering rack, steering arms, catalytic converter, service, drop link and It has reasonably new tyres it also has a power flow exhaust from the manifold. This car also come with a kenward dvd/cd player. The passenger window for some reason dosent work I have bought a new window regulator but I Havant had the time to fit. it dose need a lamba sensor but doesn't affect the drive of the car it still shoots off like a little pocket rocket and has never let me.
